30

What Standards Apply to Existing Facilities?

- Title II — Program accessibility
- Title III — Readily achievable barrier removal

31

Just a Few Words About...

...Program Access

32

State and Local Governments: Program Access

NOT a new concept. Language can be found in:

- ▶ Title II of the ADA, and
- ▶ Section 504 of the Rehabilitation Act: recipients of federal financial assistance.

33

Basic Principles

- Equal opportunity
- Integration
- Inclusion in planning

34

Program Access

No qualified individual with a disability shall, because a public entity's facilities are inaccessible or unusable,

- Be excluded from participation;
- Be denied benefits of programs;
- Be subjected to discrimination.

35

Existing facilities

Operate each service or activity so that, when viewed in its entirety, it is accessible to and usable by people with disabilities.

36

Examples of Program Access

- Relocating a service to an accessible facility, e.g., moving a public information office from the third floor to the first floor of a building.
- Providing benefits or services at an individual's home, or at an alternative accessible site.
- Making structural changes.

37

Integration

- Must give priority to methods that provide services, programs, and activities in the most integrated setting appropriate.

38

“When Viewed in Its Entirety”

- Look at each program or program component – how do people participate generally?
- Identify locations in specific geographic areas – county by county, town by town, or neighborhood by neighborhood.

39

“When Viewed in Its Entirety”

- Which locations are accessible and to what extent?
- How well dispersed are the accessible locations? How convenient are they?
- What are existing barriers to participation?
- What services or programs are offered at each location? Who is the intended audience/customer base?

40

Program Access

- Exceptions:
 - fundamental alteration in the nature of the service, program, or activity
 - undue financial and administrative burdens.
 - BUT, public entities must take any other action that would ensure that individuals with disabilities receive the benefits or services.
- May not carry an individual with a disability as a method of providing program access, except in “manifestly exceptional” circumstances.
